

Cloud Easy Smart Outdoor Gigabit PoE Switch

WI-PCES306G-O | WI-PCES309GF-O

Overview

Cloud Easy Smart Outdoor Gigabit PoE Switch provides a cost-effective, integrated solution for your outdoor CCTV/WLAN system with 4/8 RJ45 PoE ports, which can power and transmit data for IP cameras and other PoE powered devices through a single Ethernet cable, shortening the construction cycle and cost.

This series of switches supports cloud management where you can remotely manage your devices in the cloud platform/mobile app, providing you with intelligent, simple, and easy-to-maintain management measures. Users can view the network status, modify the configuration, and troubleshoot at home anytime.

Features

Wi-Tek Cloud Easy Smart Management

ONVIF cameras and Wi-Tek cloud management devices can be remotely managed through the Wi-Tek cloud platform/mobile APP, making CCTV network projects truly intelligent and easy to maintain. You can easily access and manage your cameras from your phone or computer anytime, anywhere.

Note: The Eweb tunnel can be created only when the easy smart switch is linked with the other type of Wi-Tek cloud management device, such as cloud L2, L3 management switch, gateway, wireless AP, etc.

Automatic Loop Prevention

By default, the switch enables port loop detection. When a loop occurs on the switch, the port which caused the loop will be closed in time to enable the switch to operate properly and maintain service continuity.

IP65 Waterproof and Dustproof Enclosure Design

It adopts a high-weather-resistant shell and provides dustproof and waterproof capabilities. It can work normally in extreme environments as low as -30°C and as high as 60°C , without fear of wind, sun, rain, and snow.
